DENTALINE®

Multi-Purpose Disposable Instruments Set

STERILE **R** 25KGY Gamma Radiation - Sterilized

Benefits

Ready to Use:
Minimizes tray set-up time

Hygienic:
Eliminate cross contamination issues

Convenient:
For routine use, in case of staff shortages, autoclave breakdowns, home visits and for high risk patients.

Time saving
Reduces time spent sterilizing.

Cost effective
Increase productivity and reduce cost of sterilization.

Disposable Products

ICON Interdental brushes standard

High tensile strength, plastic coated, stainless steel wire at the core prevents the brushes from bending. Brush is also fully flexible and after bending will retain its original shape. The brush and handle are manufactured as a complete unit so there is no need to assemble. Additionally each brush has its own hygienic cap which can also be used as a handle extension (except ID114 and ID115).

Pack of 8 pieces

ICON Interdental brushes soft

Following research with leading hygienists, Stoddard has developed a new softer range of interdental brushes and handles for patients and users with sensitive gums or periodontitis.
